

Learning English

5 Easy ways to learn English Language

01

Read everything you can get your hands on
learning new words and expressions is essential to building your vocabulary arsenal, particularly in a language like English with so many words! However, don't just read and move on – next, you've got to...

02

Talk with real live humans

A lot of would-be English speakers have turned talking into a huge insurmountable barrier that only serves to psyche them out. Don't be like that. Seek out native speakers for an informal language exchange, enroll in a course, or take classes online.

03

Actively take note of new vocabulary

Whenever you hear or read a new word or expression, write it down in context: that is, in a sentence and with its meaning noted. This saves you time as you won't return to that word and ask yourself: "What did that word/expression mean again?"

04

Subscribe to podcasts or Youtube channels (in English)

Like humor? Politics? Blogging? Cooking? With topics covering every interest imaginable, there's an English-speaking podcast or Youtube channel out there for you. Subscribe to a few and listen while driving or watch during the commute to school or work. At first, you might find the native accents difficult, but stick with it and you'll soon start to understand what you hear (as well as learning lots of new vocab from a native speaker!)

05

Use your friends

Have friends who post online in English? Don't gloss over them in your news feed: scan the items they share and commit to exploring one or two each day. They might be news or magazine articles, videos, talks, blog posts, songs, or anything else: if it's in English and the topic interests you, it's going to be helpful!
